## Features

**UserInfo** shows the profile information and the profile picture when hovering over a link to the corresponding user page. This extension allows to quickly view a user's contact information without having to switch to the profile page. This information corresponds to information in the user's profile page and is handled by [SocialProfile](#).

## Technical Information

This information applies to BlueSpice 3 . Technical details for BlueSpice cloud can differ in some cases.

## Requirements

MediaWiki: 1.31  
BlueSpiceFoundation: 3.2

## Integrates into

- BlueSpiceUserInfo

## Special pages

## Configuration

| Name               | Value                   |
|--------------------|-------------------------|
| UserInfoHiddenMeta | array ( 0 => 'email', ) |

## API Modules

## Features

**BlueSpiceSocialProfile** provides the SocialEntity of type profile. Furthermore, the user page is converted into a complete user profile.

**Warning:** Pages in the namespaces *SocialEntity* and *User* are indexed by search engines by default until prior to version 3.1.13. If you run a public wiki with an earlier version, you should [exclude these namespaces from being searchable](#) unless you want these pages to be indexed by public search engines.

- the user page is converted into a complete user profile
- the content of the original user page is also shown as a description field below the profile section
- provides the page *Special:SocialProfiles*
- a user profile can be included in a page with the tag `<bs:socialentityprofile username="Testuser" rendertype="Short" />`
- users can update their profile information and upload a profile picture
