Features

UserSideBar lets users create their own personal sidebar navigation.

- The content under Focus in the Users' Home Bar can be customized by the user.
- Extensions can provide a tag over which content is displayed, currently the following pages are shown by default:
 - PAGESVISITED
 - YOUREDITS (own edits)
 - WATCHLIST
- Users can also create their own areas:
 - Entries with an asterisk (*) are always interpreted as area headings (analog mediawiki: sidebar).
 - Entries with two stars (**) are content elements of the area. Single (**) without assignment to (*) are discarded.
 - The pages are determined as in the Mediawiki: Sidebar by URL
