### Extension\ DynamicPageList3

| Overview                                         |                                                                                                                                                                                              |             |                         |
|--------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|-------------------------|
| Description:                                     | Create lists of other articles based on their category, namespace, title, references or template usage and include contents or arguments of template calls of those articles into your page. |             |                         |
| State:                                           | stable                                                                                                                                                                                       | Dependency: | MediaWiki               |
| Developer:                                       | Alexia E. Smith, Algorithmix, Dangerville, IlyaHaykinson, Theaitetos, Unendlich                                                                                                              | License:    | <a href="#">GPL v2+</a> |
| Type:                                            | <a href="#">MediaWiki</a>                                                                                                                                                                    | Category:   | Reporting               |
| Edition:                                         | BlueSpice free, BlueSpice pro, BlueSpice Farm, BlueSpice Cloud                                                                                                                               |             |                         |
| For more info, visit <a href="#">Mediawiki</a> . |                                                                                                                                                                                              |             |                         |

## Features

**DynamicPageList3** extension is a reporting tool for MediaWiki, which allows to include lists of pages, based on various selection criteria, on any content page.

**Compatibility info:** In MediaWiki 1.35 (BlueSpice Cloud), this extension can cause a database error. <https://phabricator.miraheze.org/T6402>

## Usage / functionality

A typical application is the inclusion of a list of pages from certain categories or namespaces on a wiki page. The selection and sorting criteria can be applied using various paramters.

## Technical info

The standard module for this extension is `{{#dpl: ... }}`.

## Configuration

- There are no configuration options for this extension.

## More Info

---

Examples for how to use this extension are included on the related [help page](#).

A complete user manual can be found on [Gamepedia](#).

## Application examples

---

You can view a documentation of all selection criteria and formatting options at [Gamepedia](#).

This help page contains some examples of typical applications for this extension as well as a [list of common parameters and their values](#).

## List of subpages

The following code shows the subpages of the current page in a 3-column layout:

```
{{#dpl:
|titlematch={{PAGENAME}}/%
|shownamespace=false
|replaceintitle={{PAGENAME}}\\/,
|columns=3
|mode=none
|rowcolformat=width=100%
}}
```

Example: Display the subpages of the page *VisualEditor* in the namespace *Manual* in a 1-column layout:

```
{{#dpl:
|titlematch=VisualEditor/%
|shownamespace=false
|namespace= Manual
|replaceintitle=/VisualEditor\\/,
|columns=1
|mode=ubordered
|rowcolformat=width=100%
}}
```

### Output:

- [Files](#)
- [Images](#)
- [Tables](#)
- [Tables/Examples](#)
- [Version comparison](#)

## Selecting pages by namespace

```
{{#dpl:
|namespace=Manual
|includesubpages=true
|shownamespace=false
|count=5
|ordermethod=title
}}
```

Output:

- [Admin Manual Introduction](#)
- [Archive/Extension/DocumentManager](#)
- [Archive:Extension/RatedComments](#)
- [BlueSpice Layout](#)
- [BlueSpice Layout/Footer](#)

## Selecting pages by category

```
{{#dpl:
|category=QM
|addcategories = true
|includesubpages=true
|shownamespace=false
|count=5
|ordermethod=title
|mode=ordered
}}
```

Output:

Extension:DynamicPageList (DPL), version 3.3.2: Warning: No results.

## Selecting pages with specific naming patterns

```
{{#dpl:
|namespace=File
|titlematch=A%
|count=5
}}
```

Output:

- [File:A1.png](#)
- [File:A1A3.png](#)
- [File:AbBISp1.jpg](#)
- [File:AboutBISp1.jpg](#)
- [File:AddPhoto.jpg](#)

| Parameter | Syntax                             | Description                                    |
|-----------|------------------------------------|------------------------------------------------|
|           | <i> ordermethod=user,firstedit</i> | Ordered by author, then by creation date       |
|           | <i> ordermethod=user,lastedit</i>  | Ordered by last editor, then by last edit date |
| order     | <i> order=ascending</i>            | Sorted in ascending order                      |
|           | <i> order=descending</i>           | Sorted in descending order                     |

## Display of meta data

| Parameter      | Syntax                                                                                          | Description                                                     |
|----------------|-------------------------------------------------------------------------------------------------|-----------------------------------------------------------------|
| addcategories  | <i> addcategories=true</i>                                                                      | Shows all categories of a page after the page name              |
| addpagecounter | <i> category:QM ordermethod=counter order=descending</i><br><i> addpagecounter=true count=5</i> | Shows the 5 most popular pages in the category QM               |
| adduser        | <i> category=QM ordermethod=lastedit adduser=true</i>                                           | Adds the name of the last editor in front of the page name      |
| addauthor      | <i> category=QM addauthor=true</i>                                                              | Adds the name of the original author in front of the page name. |
