## Reference:Semantic MediaWiki

### Extension\: Semantic MediaWiki

| Overview                                         |                                                                                                                                                                                                                                                                              |             |               |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|---------------|
| Description:                                     | allows users to add structured data to wiki pages through simple wikitext markup that turns links to other pages and data values in a page into meaningful properties. With this information, SMW helps to search, organize, browse, evaluate, and share the wiki's content. |             |               |
| State:                                           | stable                                                                                                                                                                                                                                                                       | Dependency: | MediaWiki     |
| Developer:                                       | Markus Krötzsch, Jeroen De Dauw, James Hong Kong                                                                                                                                                                                                                             | License:    | GPL v2+       |
| Type:                                            | MediaWiki                                                                                                                                                                                                                                                                    | Category:   | Data Analysis |
| Edition:                                         | BlueSpice pro, BlueSpice Farm, BlueSpice Cloud                                                                                                                                                                                                                               |             |               |
| For more info, visit <a href="#">Mediawiki</a> . |                                                                                                                                                                                                                                                                              |             |               |

## Features

**Semantic MediaWiki** (SMW) is an extension for managing structured data in your wiki and for querying that data to create dynamic representations: tables, timelines, maps, lists, etc. The actual homepage of Semantic MediaWiki, including user documentation in multiple languages, is [semantic-mediawiki.org](https://semantic-mediawiki.org). There are various other pages in the MediaWiki and Wikipedia space related to SMW, but the homepage is the most up-to-date source of information.

There are a large number of "spinoff" extensions that require the presence of Semantic MediaWiki; see the category [Semantic MediaWiki extensions](#) for the full list (some of these extensions are obsolete).

Makes the wiki more accessible to machines and humans.

For more information please visit [MediaWiki](#).
