Setting a reminder

Reminders are set in the quality management tab of the [page tools](#). The date can be set as a recurring event. It is a good idea to add some text in the comments page so that the list of all reminders on the wiki provides some context for each reminder. If other users have also set a reminder for the page, they are shown on the reminder flyout as well.

Reminder

You can set a reminder for this page here. On the specified date, you will get notified according to your notification settings.

There are no upcoming reminders for this page

Page 1 of 1

Setting a reminder

From the bottom of the page, users can load the pages *Manage reminders* and *My reminders*.

Manage reminders

Available only for wiki admins , the page *Special:Reminder* shows a list of all reminders for all pages and all users. Wiki admins can delete reminders or edit the due date and other details.

Reminder manager for wiki admins

My reminders

The page *Special:Reminder/USER_NAME* shows the reminders for the currently logged-in user. It has the same functionality as "Manage reminders", just in the scope of the current user.

BlueSpice Layout

Your wiki is divided into several unique areas that group the features of the wiki in a meaningful way. Here we give you an overview so that you can easily find the functionality that you are looking for.

Note: Some features are disabled by default in your wiki or only visible to specific user groups such as administrators.

Layout area	Description
1- Custom menu	A wiki administrator can create custom navigation to pages inside and outside the wiki.
2- Main toolbar	Contains important elements such as the logo area, the search field and access to the user profile.
3- Navigation	The "heart" of the page organization. From here, users can access all pages, depending on their permissions. Many navigation elements can be customized.
4- Content area	Here you create and edit all wiki content. Discussions are also located in this space.
5- Page tools	Powerful page management features. This includes important tools for the quality management of a page.

Custom menu

Layout area	Description
1- Custom	With the extension BlueSpiceCustomMenu, a wiki administrator can create individual

Layout area	Description
menu	navigation to pages inside and outside the wiki.

Main toolbar

Layout area	Description
1-Logo area	The BlueSpice logo can be exchanged via the Config Manager with a company logo.
2-Search field	You will search pages and files with a full-text and title search, as well as a fuzzy search. With search filter and search in the metadata.
3-Edit page	A button that switches a page into edit mode. Only active for users with write access.
4-Create page	A button for creating a new page or uploading a file. Only active for users with write access.
5-User menu	Users manage their own settings and notifications here. The avatar icon indicates when unread notifications are waiting for the user.
6-Language selector	In multilingual wikis, you can switch between the language versions of a page.
7-Fullscreen toggle	Hides the navigation and page tools at the same time.
8-Custom menu toggle	Here you can hide and show the top menu.

Navigation

Layout area	Description
1- Main navigation	This is the general navigation. It can be customized by the administrator for the whole wiki.
2- Books	(optional): If you use the bookshelf extension , users can go to all general and individual books to which they have access.
3- My pages	This is your custom navigation bar. They can be adapted to your needs.
4-Global actions	Direct links to many special pages and administration pages (for administrators).
5-Navigation toggle	Shows and hides the navigation.

Content

Layout area	Description
1-Title section	In the title section of a page, the most important page information and page functions are put together in a user-friendly way.
2-Work area	In the workspace, users create and edit all page content. VisualEditor simplifies the editing process.
3-Footer	The footer contains links to legal information as well as to external MediaWiki websites.

Page tools

Layout area	Description
1-Page tools (a) Menu (i) Menu header (ii) Menu link	Lots of page actions and information related to this page can be found here.
2-QM tools	Lists all the important tools to manage the life cycle of a page, such as reminders and page reviews.
3-Tools toggle	A switch to hide and show the page tools.

Edition:	BlueSpice pro, BlueSpice Farm, BlueSpice Cloud		
View help page			

Features

The extension **Reminder** allows users to keep track of pages by adding a notification date for themselves or for other users.

- Set a reminder date for yourself or for other users
- Make the date a recurring event
- View and manage a list of your personal reminders
- View a filterable list of all reminders on the wiki

In the user preferences, users can set if and how they want to be notified a week before the event and on the day of the event.

Technical Information

This information applies to BlueSpice 3 . Technical details for BlueSpice cloud can differ in some cases.

Requirements

MediaWiki: 1.31

BlueSpiceFoundation: 3.2

Integrates into

- BlueSpiceEchoConnector
- BlueSpicePrivacy
- BlueSpiceReminder

Special pages

- Reminder
